Rain Repellent Glass Treatment Let the Wind Clear the Rain

Highly effective, water-based rain repellent

Ideal for all automotive glass:

- Forms an invisible barrier to water, dirt, road debris, snow and ice
- Improves visibility and glass clarity
- Spray-on/wipe off formula is quick and easy to use

An advanced polymer coating that repels rain, sleet, hail, snow, dirt and environmental grime from your windshield resulting in enhanced visibility without the constant use of your wipers and even more importantly... improved safety.

Simple to use, just spray onto the windshield and wipe using a microfiber cloth, allow to dry and then buff until clear. Re-apply as required.

Spray Pen
